ABOUT US

JP Products is a B2B supplier of sustainable drinkware and premium unbreakable glasses for modern hospitality. We support hotels, resorts, beach clubs, coffee chains, restaurants, caterers, event organizers, and venues that value consistent quality, reliable delivery, and an elevated guest experience.

“Your Sustainable Partner” reflects both the responsible alternatives we offer and the long-term relationships we build. Our goal is to make sustainable choices easy for hospitality professionals, without compromising on quality, performance, or presentation.

With a complete drinkware portfolio, hospitality businesses can source everything they need from one trusted partner. Through partnerships with multiple manufacturers and a strong global network of carriers and local distributors, we are able to deliver our products to customers worldwide.

YOUR SUSTAINABLE PARTNER

WHY CHOOSE US

COMPLETE DRINKWARE PORTFOLIO

Source eco-friendly disposables and high-quality unbreakable glassware from one partner. Less supplier management, more consistency.

BUILT FOR MODERN HOSPITALITY

Our products are designed to meet the standards of upscale hotels, cafés, restaurants, and event locations—helping elevate service while reducing environmental impact.

CERTIFIED AND COMPLIANCE-FOCUSED

All products in our range are supplied with the required certifications and documentation to support professional use and responsible sourcing.

STRONG NETWORK

By partnering with multiple specialized manufacturers, we are able to offer the right product for every application. Supported by a strong global network of carriers and local distributors, we ensure reliable worldwide delivery to our customers.

SUSTAINABLE PARTNER

We do more than supply sustainable solutions — we build sustainable partnerships. Our approach is based on reliability, transparency, and long-term value.

PRODUCT RANGE

Discover our range of sustainable drinkware solutions. From coffee cups to cold drink cups and accessories, each product category is designed with a focus on quality, functionality, and environmental responsibility.

SUSTAINABLE WITH STYLE AND RESPONSIBILITY

PRODUCT CATEGORIES

SINGLE WALL CUPS

Classic paper coffee cups with water based- or PLA coating. Ideal for quick service and takeaway. Lightweight, cost-effective, and fully customizable.

DOUBLE WALL CUPS

Premium double-wall cups with added insulation. No sleeve needed and comfortable to hold. Perfect for specialty coffee and premium hospitality settings.

RIPPLE WALL CUPS

Textured insulated cups with strong grip and a distinctive premium look. Designed for comfort and presentation

SUGARCANE BAGASSE CUPS

Natural fibre cups for hot drinks with a clean, organic appearance. Plastic-free, PFAS-free, and made from renewable plant sources.

COLD DRINK CUPS

Clear PLA and paper cups for cold beverages, smoothies, and iced drinks. Designed for freshness, visibility, and convenience.

ACCESSORIES

Matching lids, stirrers, straws, and more to complete your beverage service with consistent quality and fit.

SINGLE WALL HOT CUPS

Single wall paper cups are the practical choice for hot beverage service. Lightweight, reliable, and easy to brand, they are ideal for takeaway, offices, events, and everyday hospitality use.

SUGARCANE BAGASSE CUPS

Our sugarcane hot cups are made from natural bagasse and offer a responsible alternative to traditional paper cups for hot drinks. Designed for comfort and reliability, they provide excellent heat insulation, a clean natural look, and a sturdy construction for everyday use. The cups are biodegradable and completely free from plastic and PFAS.

AVAILABLE SIZES

OZ	ML	Ø TOP (MM)
6,5	180	76
8	240	80
12	360	90

Made from renewable sugarcane fibres, these cups are fully biodegradable and industrially compostable according to EN13432.

They offer excellent heat insulation, a sturdy leak-resistant construction for hot drinks up to 90°C, a natural sustainable look, and are suitable for custom branding.

COLD DRINK CUPS

Our clear PLA cups are designed for cold drinks that deserve to be seen. Made from plant-based PLA, they combine a crystal-clear appearance with reliable performance for smoothies, juices, iced coffee, and soft drinks. They are 100% compostable and certified according to DIN EN 13432 and ASTM D6400.
